Glacier White Is Latest Lace Tint

Glacier white, which has a pale bluish cast, was one of Patou's favorite colors for evening gowns in the most recent Paris showings, while Molyneux showed a vivid bright shade of blue. Molyneux not only did the new pencil-slim silhouette in lace, but made quite a sensation with his double-swing skirts for dance frocks, which were often ankle length. One of these in black lace had three flounces at the hem, with a deep square décolletage at the back edged with three ruffles. Another gown in the full-skirted group was in black net with a lace top.

In a gown by Patou with long, slim lines, fullness in the back was achieved by means of godets and the effect was quite sophisticated in lace over a silver princess slip.

Elegance Is Word For New Handbags

Handsome is the word for the new handbags. Even the bags carried with practical daytime costumes will sound a note of elegance in their general finish and fine mountings. Emphasis is on suede bags in interesting shapes and expert workmanship.

The more formal types announce revival of ornate frames, and many trimming touches in way of braiding and embroidery.

Evening bags are all aglitter with sequin handcraft, bead embroidery and other "whimsies" that tune to a song of elegance that will be heard throughout the winter social season.

Black Colors

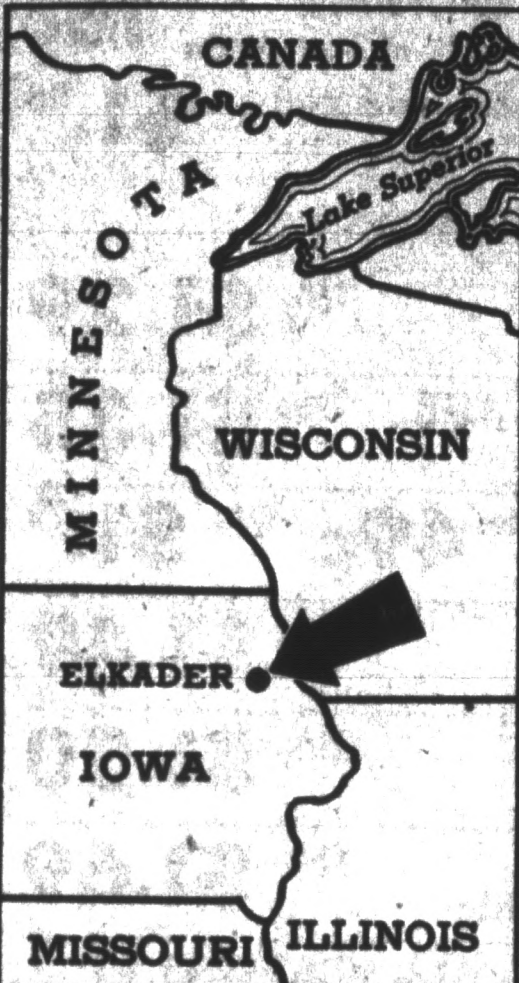

Not content with the predominance of black in its own right as the popular color for fall costumes, Molyneux adds black tones to many of his other colors.

Allies Change Time

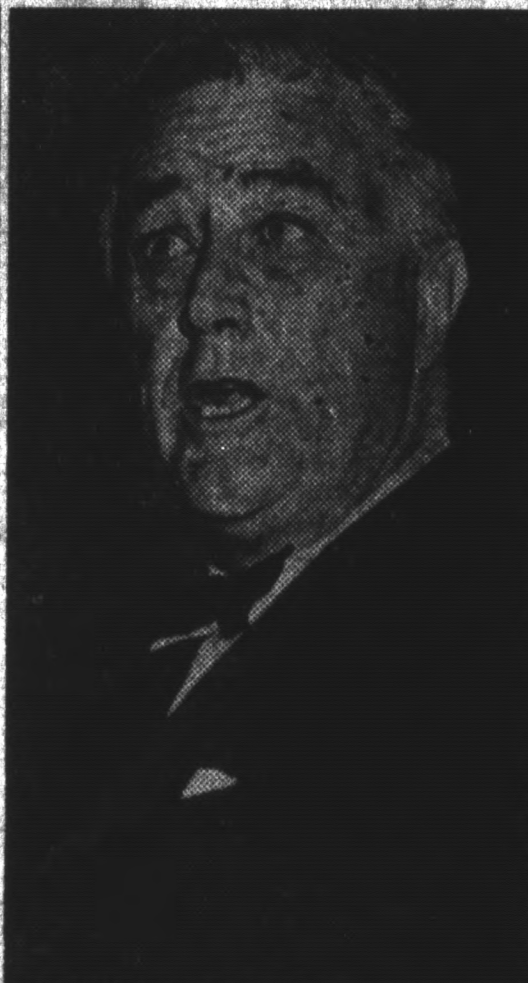

"Big Ben," the "master clock" of London, goes back one hour Saturday as both France and England returned to standard time after extending summer time from October 8 to save on light and fuel. The extension was a war measure.

Will 'Scarface Al' Return to Old Haunts?

Al Capone, once Chicago's beer baron, will probably be released Sunday from Terminal Island prison in California where he has served the last year of his sentence for income tax evasion. Capone is shown fishing off his Palm Island, Florida, estate, where he lived like a prince in the gay days before his arrest. The 25-room house with its gambling room, wine cellar, bath house and tiled swimming pool (all in his wife's name) have been refurbished awaiting Capone's arrival.

Hold Inquest

The theory that Ray Lagomarsino and Leo Tuma, escaped Folsom convicts whose bullet-riddled bodies were found last week at Thornton beach, killed each other in a gun duel was disputed by Dr. William Lynch, autopsy surgeon, at the inquest last Thursday.

Dr. Lynch, former army surgeon, declared positively: "It was impossible for these two men to have killed each other."

The jury at the inquest conducted by Coroner William Crosby returned a verdict that the two desperadoes had died from gunshot wounds inflicted by "a per son or persons unknown."

Dr. Lynch said three of the eight bullet wounds in Tuma's body could have been fatal. He said more than one of Lagomarsino's wounds likewise could have caused instant death. All wounds had powder burns, Dr. Lynch said.

THE PERFECT CUP OF COFFEE

CLEANLINESS is the first rule for good coffee. Always wash the pot after each use and scald it with boiling water each time before making coffee. Never wash your coffee pot in your dish water.

MEASUREMENTS must be accurate for good coffee. One heaping tablespoon of coffee to each measuring cup of water is minimum for good coffee. Double the amount of coffee for after-dinner coffee and iced coffee.

PIPING HOT straight from the pot—that's the way coffee should be served. Never reheat coffee, always make it fresh; serve immediately after preparation and use freshly-drawn water every time.

Exchange Privilege

Because of American shoppers' extensive use of the privilege of returning goods, large department stores must check off one day's sales in every eight to returns and allowances. The Twentieth Century fund, which conducted a study of the subject, found that the ratio tended to decrease with smaller stores.

Find Aquatic Plant

Ending a search conducted by botanists for 70 years, Herbert L. Mason, curator of the University of California herbarium, has discovered flowering specimens of the Wolfella, a small aquatic plant, in the marshes of the San Joaquin valley.

Tracy Superb In African Film

The greatest adventure known to man was thrillingly reconstructed on the screen of the Daly City theatre last night in Darryl F. Zanuck's production of "Stanley and Livingstone," with twice Academy Award winning Spencer Tracy turning in another masterful performance, co-starred with Nancy Kelly and Richard Green at the head of one of the greatest acting casts ever assembled.

When Tracy, in the role of Henry M. Stanley, the crack young reporter on the old New York Herald, spoke those famous words, "Dr. Livingstone, I presume?" in the heart of Africa,

drama's most thrilling moment was stirring reenacted in this spectacular 20th Century-Fox film.

Producer Zanuck, his associate producer, Kenneth Macgowan, and his director, Henry King, all sticklers for realism, insured a true and authentic picture of the thrilling adventure and the heroic adventurer who faced all the nameless dangers of unknown Africa—heat, fever, cannibals, jungle—when his fiery and dynamic publisher, James Gordon Bennett, gave him that memorable assignment: "Find Livingstone!"

The chief romantic interest of the story is carried by Nancy Kelly, as the lovely daughter of the English consular agent at Zanzibar, and Richard Greene, as the son of Lord Tyce, who had just returned, fever-racked, from a similar but unsuccessful expedition.

Companion feature on the new bill is "Zenobia," starring Oliver Hardy and Harry Langdon.

Patriotic Film

"The Bill of Rights," patriotic feature in Technicolor, coming to the Daly City theatre next Sunday, Monday and Tuesday, is Warner Brothers contribution to the one hundred and fiftieth anniversary of the first ten amendments to the Constitution of the United States, passed in 1789 at the first Constitutional Convention in New York.

"I Sing My Best When I Look My Best"

Says Gladys Swarthout

Can you picture these pictures in color? Gladys Swarthout (at left) wears a flowing gown of mist-blue lame brocade. The jewels are diamonds and gold.

(Below) Do you remember her in "Champagne Waltz"? Here is Gladys Swarthout wearing a superb champagne-diamond ring and necklace and bracelet of acorns carved from that same rare, tawny gem.

On the black velvet lapel of a dinner-suit, Miss Swarthout pins a diamond sunflower as warm and glowing as her mezzo-soprano voice.

GLADYS SWARTHOUT was probably born with a beautiful voice. At least the talent was so marked in childhood that she began vocal study before she was twelve.

But no woman they say, is born with style sense. And here is a girl who has made of herself, not only a star in every firmament of screen, radio and opera, but one of the best-dressed and most admired women in the world's artistic circles.

Her first and most important clothes-practice is to make her private and her professional appearance the responsibility of one designer. Miss Swarthout does not order two or three "dramatic entrances" gowns for a concert tour and then wear some totally different type of thing, that she might like better, for traveling and the street. She has a style of her own, a color-range that becomes her, and definite lines that are flattering to her slim figure. And these factors are the basis of all clothes-designing for Gladys Swarthout.

Secondly, a dress must feel as right as it looks. Miss Swarthout has the keenest perception of the cut and set and motion of fabrics.

Without any mirror she knows when a gown is a complete success, by the way it "goes on" and settles to her pretty sloping shoulders. We heard her say in the studio one day, "I couldn't sing a note just now... my dress doesn't fit!" So it was taken back to the shop, altered slightly in a seam or two, tried on again... and Miss Swarthout was completely at ease and in love with it!

But her real flare is an ability to find and use the most distinctive of jewels and accessories. No else could better wear a gold hoop necklace ending in great clumps of champagne-diamond acorns!

Another jewel which Miss Swarthout wears with great chic and real sentiment is a tremendous sunflower of white and champagne diamonds. To understand why she

considers this sunflower a talisman is to know Miss Swarthout's close association with the sunflower state. A wealthy Kansas family was her first artistic support. As a little girl of thirteen Gladys was giving a very grown-up recital in her home town of Deep Water, Missouri, when she was heard by several members of this Kansas family. They offered to finance her early musical education and their aid was accepted for several years and paid back by Miss Swarthout early in her professional career.

The singing star has just been assembling a wardrobe for a record-breaking concert tour that will take her to fifty large cities this winter, and she will also be welcomed back to the Metropolitan Opera after two years' absence forced by other contracts.

Nantucket Island

A striking feature of the homes of old Nantucket island, a high spot on many of the 52 Pilgrim Tours of New England offered by the New Haven Railroad, is the "Widow's Walk," which surrounds the chimney, and often the whole roof, of these old houses. Here the wives of the sailors and captains of the whaling ships which put out of Nantucket in the days of her greatness used to walk, high above the breakers, to watch for the sails of their husbands' ships returning.

Scholarly Intruder

Because an erudite Minneapolis burglar was catching up with his reading, the police caught up with him. The scholarly intruder entered the home of Mr. and Mrs. Frank Farnham while they were absent. In the course of his ransacking he espied an interesting magazine. He comfortably propped his feet up on a table and became immersed in an absorbing story, oblivious of passing time. Meanwhile the owners returned and called the police, who escorted the bookworm away.

Not So Bad

The Melbourne, Australia, government is convinced that traffic and driving instructions offered in a humorous vein are more effective than the usual type. With every driving license now granted is provided a book entitled "Many Happy Returns," containing instructions like the following: "It isn't your fault if all the other road users are completely daft, but it is your fault if you aren't prepared for them to be so."

Liquid Air Engines

The Japanese are running engines on liquid air at -218 Fahrenheit. A small unit is said to have pushed a 27-foot boat along at 4.5 knots, for an hour and a half.

RED CROSS LAUNCHES 1939 ROLL CALL

Local Committee
Sets Daly City Goal
At \$500 Mark

Daly City residents have fourteen days left in which to fulfill their obligations to humanity and help those less fortunate than themselves, by answering the 1939 Red Cross Roll Call, now under way.

Last year Roll Call memberships amounted to \$345, according to Mrs. Horace Fellows, 163 Vista Grande avenue, chairman of the local Roll Call. Daly City received more than twice that value in nursing service alone. Red Cross nurses made 823 visits in Daly City in 1938, 604 of which were free visits, 39 part paid and six fully paid. The balance were insurance calls.

"This year our goal is \$500," Mrs. Fellows stated, "and we feel that every citizen will co-operate to help us reach our goal."

Working with Mrs. Fellows are Mrs. Martha Wegner, 399 Crocker avenue; Mrs. Mary Crane, 140 Woodrow street; Mrs. Violet Hauptli, 87 San Pedro avenue, and Mrs. Gerry Glanville.

Plan Xmas Party For Local Kids

Civic officials and leaders, organizational representatives, and business men will meet next Monday evening at the city hall to discuss plans for Daly City's annual community Christmas party for local children.

H. G. King, who was chairman of Daly City's Day at the Fair, and Bruce Boynton, recreation department head, briefly outlined plans for the gala event at council meeting Monday evening.

It is proposed, as last year, to arrange the party as a Saturday afternoon matinee at the Daly City theatre. All local children will be given free admission tickets.

Committees will work up special entertainment features and provide gifts for the kiddies.

Sea of Galilee

The Sea of Galilee of Biblical fame is below sea level, yet its outlet flows into a sea! The Sea of Galilee, a body of fresh water 13 miles long and seven miles wide, is 700 feet below the level of the sea, its outlet, the River Jordan, carries the overflow to the Dead sea, a body of salt water, which is 1,300 feet below sea level. That's as far below sea level as the water can go—there is no outlet!

'Going to the Dogs'

Relief at Fremont, Ohio, has been "going to the dogs," according to the dog warden, Hiley Mook, who reported that a large part of the milk furnished daily for eight children was being fed to four dogs of a rural relief client. Mook took the dogs.

My Favorite Recipes

Lucky, indeed, is the homemaker who has among her treasured recipes Aunt Martha's "receipt" for soft molasses cookies. Mother's rule for old-fashioned apple pan dowdy, or grandmother's instructions for making home-baked beans. Those old, favorite recipes are the mainstay of many a tempting meal.

Each one of us has our own prized collection of just such recipes—some old, some new, but all of them tried and approved by a critical family.

The recipes I'm giving you today are some of my own favorites—family "heirlooms" and contributions from friends and neighbors who are excellent cooks.

When you're a "seasoned" or experienced cook you may take liberties with a recipe or with directions, but if you're a beginner, or if you're trying a new dish for the first time, it's better to stick to a proven recipe and the accurate measurements it calls for.

Accuracy in cooking means level teaspoons and tablespoons and cups in the amounts the recipe specifies; it means sifting flour once before measuring; combining ingredients by the method given, and cooking or baking according to time and temperature recommended.

Oven Fried Chicken.

(Serves 4)

- 2 to 3 pound chicken (cut for frying)
1 cup flour
1 teaspoon salt
¼ teaspoon pepper

1 cup cream
Dip pieces of chicken in flour to which salt and pepper has been added; then dip in beaten egg to which water has been added and finally roll in cracker crumbs. Brown in hot fat (1 inch in depth). Place in baking pan, sprinkle with onion, and top with cream. Cover and bake in a moderate oven (350 degrees), until tender, approximately 1½ hours.

Surprise Muffins.

(Makes 2 dozen small muffins)
1 egg (well beaten)

Smooth out and replace in freezing unit until frozen for serving. Serves 6.

County Debt Service Cost \$7.75 Per Capita

Debt service in San Mateo county, payments for interest and redemption on debt owed by the governmental units in the county, cost an average of \$7.75 for each man, woman and child in the county, or approximately \$31 for each family of four, according to a study of debt payments in California for the year ending June 30, 1938, recently made public by California Taxpayers' association.

Total debt payments in the county amounted to \$729,621 the association found. Of this amount, \$31,543 went for interest and \$79,500 for redemption of general county bonds; \$72,951 for interest and \$131,961 for redemption of debt of the municipalities in the county; \$96,383 for interest and \$187,250 for redemption of debt of the school districts; \$25,415 for interest and \$104,618 for redemption of special and assessment districts.

Debt payments for irrigation, reclamation, and other special districts not reported to the State Controller, were not included in the study, the association stated.

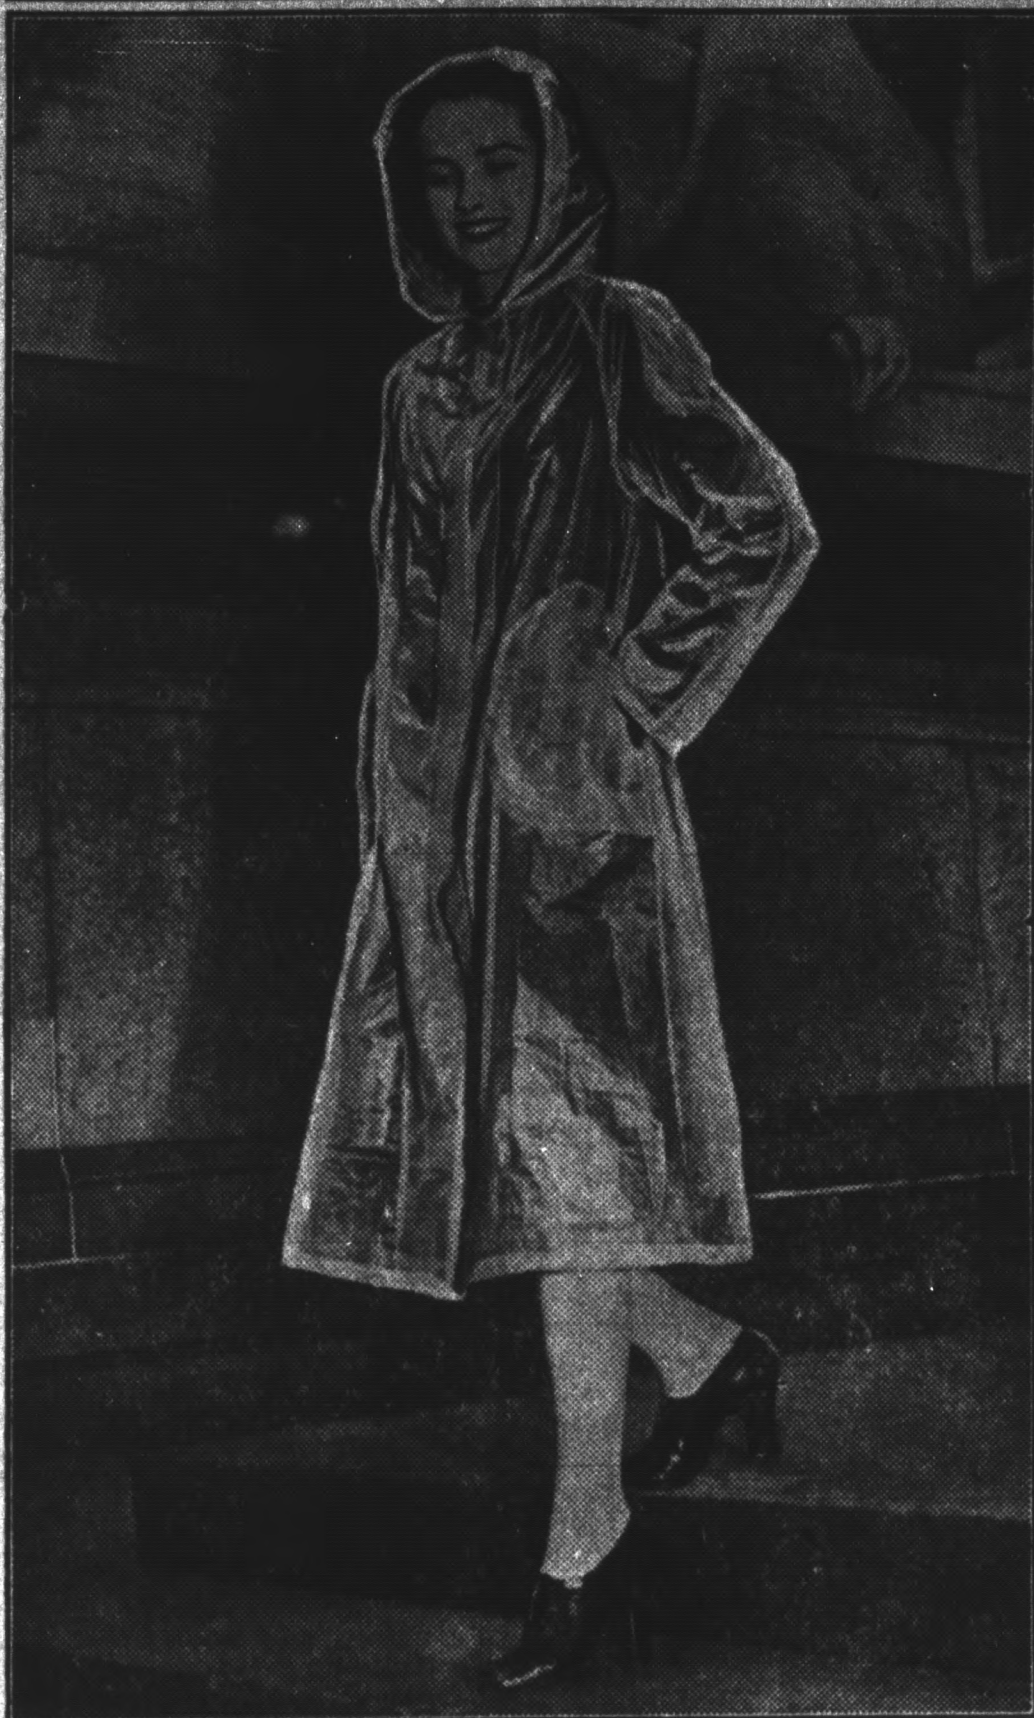

The county ranked seventh from the highest in debt payments per capita, the association found. The ten counties with the highest per capita debt payments were Colusa, Orange, San Diego, Santa Barbara, Sacramento, Contra Costa, San Mateo, Ventura, San Joaquin and Sutter. Mono county showed no payments for debt service for the year included in the study; Plumas, 23 cents per capita; Sierra, 38 cents; Amador, 42 cents; Trinity, 43 cents; Tuolumne, 96 cents, the association stated.

"The payments for debt service shown by this study are only those for the local governments within the county," the association declared. "They do not include the tremendous costs of the debts of the state and federal governments—all of which must come out of the taxes paid by the people. Every proposed bond issue by any local government should be considered, not as an isolated proposal, but in light of the outstanding indebtedness and the cost of debt service which must be paid for all the governmental units in the area affected."

Chewing Gum Oksayed

Chewing gum, pencils, rubber bands, toothpicks, pipestems and other things are restful and useful forms of exercise for office workers, Prof. H. L. Hollingsworth, of Barnard college in New York city reported recently. Experiments made over a four-year period showed that chewing relaxes tension and allows individuals to apply more energy to the tasks at hand.

With Coat Like This It's Hail to Rain!

It is doubtful if even the most capacious miss would rail against a rainy day with the old jingle "Rain, rain go away." If she possessed one of these new model raincoats with fetching hood. In soft pliable silk, treated with a material known as koroseal to make it water-proof and spotproof, the coat has a number of excellent fashion as well as utilitarian points. Despite its nice slim lines, it is roomy enough to go over the new style skirts and its becoming hood will also protect a hat in addition to forming a becoming head covering if the owner prefers to go hatless. Notice, too, the model's trim feet which are encased in shugloves, overshoes which so nearly simulate shoes it is difficult to tell the difference at any distance.

William Bolster, who has more miles to his credit than any other postal worker in the Irish Free State, has retired on a pension.
